[DISPATCHES TO THE OREGONIAN]

DATES TO JUNE 22.

Congressional.

WASHINGTON, June 22.—In consequence of the representation of Bidwell of California the Secretary of the Interior has revoked the order withdrawing from the markets the Petroleum lands in California

The Army Appropriation bill contains the following Senate amendment offered by Conness

"That the Quartermaster's Department shall advertise in San Francisco and Portland for bids and shall give the preference to articles produced on the Pacific Coast the quality being equal and the price no greater than if purchased on the Atlantic side, with the cost of transportation to the Pacific added thereto"

CHICAGO June 22 —The following was the vote by which the Senate on Tuesday 19th passed the amended Pacific Railroad bill Ayes—Anthony of Rhode Island, Brown of Mo Buckalew of Pa., Conness of Cal., Cowan of Penn Cragin of N H, Davis of Ky, Guthrie of Ky Henderson of Mo, Hendricks of Ind, Howard of Mich, Howe of Wis, Nye of Nevada, Sherman of Ohio Sprague of Rhode Island, Stewart of Nevada, Van Winkle of West Virginia Wade of Ohio, Willey of West Virginia and Williams of Oregon—21 Noes—Fessenden of Maine Foster of Conn, Grimes of Iowa, Harris of New York, Kirkwood of Iowa Morgan of New York Morrill of Maine Norton of Minnesota Poland Vermont Trumbull of Illinois Wilson of Mass and Yates of Illinois—12.

Pomeroy of Kansas offered an amendment providing that inasmuch as the Kansas branch of the Union Pacific Railroad was to be allowed to change its route the Hannibal and St. Joseph Railroad was to be allowed to change the route of their extension and have additional bonds and lands for that purpose This amendment was roughly handled by Poland and Conness and withdrawn

Kirkwood of Iowa said it was the original understanding that the three Eastern branches were to meet on the 100th meridian and unitedly push Westward Now the efforts seem to divide When the Kansas branch gets to Denver it will ask for an independent Route through. He was decidedly in favor, however, of the Second Section, which allowed the California Company to operate from the West as rapidly as they can

Howe moved to strike out First Section

Henderson said if this notion prevailed he should appeal to the Senate to repeal all laws providing for any branch for Missouri He bitterly fought against that legislation which had made the Omaha branch the main stem to the injury of all other interests

Guthrie, of Kentucky, advocated the bill saying "The route up the Smoky Hill Fork was not only shorter and better than that up the Republican, but it was the only route the Government ought to let the company build upon" He said that with a good road open to Denver the company would at once command a profitable business, but if built to the initial point on the one hundredth meridian, the main stem would absorb all business and there would be no local aid or assistance to the Kansas branch, because of the worthlessness of the country

Wilson, of Mass., said this bill was calculated to disturb the construction of the Pacific Railroad. The Union Pacific Company from Omaha have already expended sixteen millions of dollars They have completed one hundred miles They have graded another hundred and have bought iron for three hundred miles They have mortgaged their road over the whole line They are now trying to borrow $20,000,000 in Europe. Their only hope is that of no hostile legislation The Omaha Company—so called for distinction—claim that they have received only $10,500,000 from the Government, and they have vested rights over the entire line which this bill jeopardizes. It is a violation of their rights to pass either the first or second sections of the bill. It was agreed that the California Company should come 150 miles east of the California boundary. Now it is proposed that they may come as far east as they please and work sections ahead of their continuous line They cannot get 150 miles under four or five years. Therefore it is not only proposed to clip this Omaha Company at its western end, but to make the Kansas branch a competing line and there are not many who believe investments in the main road are as safe as they would be without this legislation

Howard of Michigan replied that the Company could not mortgage their road faster than it was built and then in amounts not exceeding the Government bonds received If they have made a mortgage covering the entire line and taken it to Europe, they have acted by no means in accordance with the plain provisions of their charter. Conness of California made a statement showing how rapidly the California end was being built, and said we are not legislating to secure the Pacific Railroad charter to a single company, none other being allowed to build it." He said of the provision in the law of 1864, that the California Company might build only 150 miles eastward that this provision was incorrectly inserted in the Conference Committee's report by the clerk of the committee, and being done on the last day of the session, it was not discovered Now we propose to correct that. Stewart of Nevada said the Omaha Company had not yet determined where it would cross the mountains, and yet its engineers were in Nevada making surveys for the purpose of mortgaging the line to foreign capitalists. The California Company had not struck a spade beyond the ten miles between Colfax and Dutch Flat, and any ten miles in that region shows more work than 130 miles at the Omaha end The California Company are coming East. The people of the Pacific coast demand the railroad and don't care who builds it, but they do care that its progress at either end shall be unencumbered and that no man like Durant shall manipulate this great national interest for the gain of favorite operators. Wilson of Massachusetts said Gen Dix was President of the Union Pacific Railroad Co., and no man can question his character The Government has also five Directors in that company and he (Wilson) thought we must have confidence in them till they were shown to be unworthy After further debate the final vote was taken and the bill passed as above.

WASHINGTON, June 22.—The Senate passed a bill providing for the sale of marine hospitals in which only twenty patients per diem are received, and also passed a bill granting lands to aid the Kansas and Neosho Valley Railroad

The House laid on the table a bill providing for the improvement of a wagon road from Nebraska to Virginia City, Montana

The House passed a bill appropriating a half million dollars for constructing an Armory at Rock Island, Ills.

Bingham, of Ohio, from the pension committee reported against pensioning the soldiers of the war of 1812, which he said would involve an annual outlay of $10,000,000.

A message was received from the President, saying the joint resolution proposing an amendment to the constitution was on the sixteenth officially communicated by the Secretary of State to the Governors of the various States, but this act was merely ministerial and not to be construed as involving the consent of the executive to the proposed amendment, the adoption of which by Congress in the absence of the representatives of eleven States he regards as unfortunate, and hints at doubts of the legitimacy of the proceeding The President also sent a message covering recent correspondence with Minister Bigelow at Paris, in regard to the withdrawal of the French troops from Mexico, and pronounces the recent conversation with the French Minister of Foreign Affairs on this subject satisfactory

The Commissioner of Agriculture is in receipt of several superior samples of cotton grown in California.

STRUCK BY LIGHTNING

During a severe thunder storm, a few days ago, five men were struck by lightning on the Military Reserve near the mouth of Two Mile creek Four of them were instantly killed, and the fifth badly scorched The survivor's name is Reynolds.

GOLD SHIPMENTS

The gold despatched to the East from the several creeks in Central, for the week, amounted to a total of 1,249½ ounces.

SINGULAR AND FATAL ACCIDENT.

While the Julesburg Operator was repairing the line between Julesburg and Alkali to-day he was informed by several persons that Mr John Whitton, a driver in Alex Benham's train when some eight miles west of Alkali had reason to lift the telegraph line off the ground when a flash of lightning struck the line at that point tearing it into small pieces and instantly killing Mr Whitton. The men who saw the accident state that they observed a ball of fire, as large as a man's fist issue from Whitton's breast He was buried on the spot where he was killed The operator states that this was the most terrific storm of lightning he had ever seen

OUTRAGE BY THE UTES

We are informed that a party of Ute Indians are down the Arkansas in the vicinity of Fort Lyon, as they say for the purpose of hunting. One day last week a Mr Banks, who went from Fort Lyon to Fort Aubrey about 100 miles below, for a load of freight, was set upon the prairie for his horses when these Indians lariated him pulling him from the horse he was riding, injuring him considerably They then robbed him of what money he had to his hand and let him go, saying they didn't want to go to war with the whites, but they wanted money and horses. Mr Banks reported the above at Fort Lyon and we have it from Capt Cochrane who has just arrived from that post

MINING PROSPECTS.

The editor of the *Register* than whom no one has a better opportunity of being posted says "We honestly believe that to day there is more mining going on than at any other time in the last two years and that the record will show a prosperous condition of affairs"

THE UNION PACIFIC RAILROAD

Material for the U P R R, is arriving daily at Omaha. There is about 30 miles of rails now laying upon the levee at that point besides spikes, chairs etc The road bed is completed and ready for the iron rail to within ten miles of Fort Kearney, and it is claimed that the remainder will be completed by June 15. The track is progressing at the rate of over a mile a day There is no question but that the iron horse will reach Kearney early next fall

MINING ORGANIZATION FOR SNAKE RIVER

We received a call this morning from Mr J T Lynch who has just returned from the East, where he has organized a company for developing the mines in the Snake river country He is going to work at once to erect a small furnace, for testing the ores If they prove to be what everybody believes them to be a working capital is ready for extensive operations

OFFICIAL PAPER OF THE STATE

FRIDAY MORNING JUNE 29 1866

The People's Tribune Speaks Again

President Johnson has spoken again. "My policy" has received a further elucidation. This time the declaration of his [illegible] comes in the shape of an official manifesto addressed to that superfluous branch of the government the Congress of the United States. The President informs that body that in the fullness of his own good pleasure he has condescended to have the Constitutional Amendment which has passed Congress transmitted to the Governors of the States but says plainly that this gracious act of his is not to be construed as involving the assent of the Executive to the measure. Indeed! And suppose the Executive should forever withhold his assent, what then? His Accidency evidently is of opinion that the people of the United States are at liberty to make no alterations in the Constitution unless the proceeding is agreeable to himself. No doubt his patriotic soul is often vexed to know how it will fare with the country after he goes into retirement. But it is a consolation to the people to know that as the country managed without him before he came to the Presidency, so it will probably be able to make a shift to get on without him after the expiration of his term.

But the President objects to the Constitutional Amendment because it is in contravention of "my policy." "My policy," then, is the standard the Constitution is to be measured by. Both are alike sacred, inviolable, irrepealable and unamendable. "My policy" cannot be changed because such a proceeding would be a violation of the Constitution. In like manner the Constitution must not be changed because it would involve the destruction, and compel the abandonment of "my policy." "You propose to the people that they, in the exercise of their sovereign right, may amend the Constitution. I, their tribune, forbid. The operation of my policy must not be arrested. It is unlawful to make changes in the fundamental law of the country while eleven States are unrepresented in Congress." Such is the substance of the President's objections. If the proceeding proposed by Congress isn't "legitimate," when did it become unlawful to amend the Constitution while eleven States are unrepresented? If we recollect aright, one amendment was proposed and ratified not long ago under circumstances precisely like those now presented. And further, we believe history will sustain us in the assertion that Mr Andrew Johnson insisted on having that amendment ratified, notwithstanding the "eleven States were unrepresented in Congress." A proceeding that was perfectly legitimate less than a year ago, is not legitimate now! States could be *compelled* last year to ratify an amendment to the Constitution, but they must not be *asked* now to do the same thing. "My policy" is truly progressive. Johnson carrying out the policy of Lincoln! He cannot carry out his own, in a consistent manner. In all respects, it is precisely the reverse of what it was only three-quarters of a year ago.

State Bounties for Manufactures.

California has shown a proper appreciation of home manufactures by offering liberal bounties for their encouragement within her own borders. Oregon would do well to imitate, in a manner corresponding with her means, the munificence of California in this respect. In our neighbor State a premium of $1 000 is offered for the first field of cotton of not less than ten acres in bearing, and of good staple. Another premium of $2,000 is offered for the first fifty acre field. Among other premiums, is one of $1,000 for the first two hundred bales of flax of two hundred pounds each, and for the first ten bales of raw silk of one hundred pounds each, $2,000. Large premiums are also offered on woolen goods—such as $250 for the first 1 000 pairs of woolen socks; $500 for the first 1 000 pairs of woolen drawers, etc. Considerable sums are offered for the manufacture of given quantities of linseed-oil, tar, tobacco and many other articles. At the beginning of the present year, California paid in premiums over $12,000. The State is doing all that enterprise and liberality can accomplish to develop her own capabilities, encourage her own manufactures, secure her commercial independence and promote her general prosperity. Oregon might not afford to do as much in this direction as California, but she can and should do something. In the natural elements of permanent greatness, Oregon stands fully equal to her neighbor. The true sources of her wealth are yet scarcely touched, but when they shall be fully opened and all our enterprises and interests shall begin to thrive together and to assist each o[illegible] Oregon will not long remain so far infer[illegible] alifornia as now.

A WHITE MAN'S GOVERNMENT.—The current twaddle concerning a "white man's government" is about the most transparent of all the insincerities of which the Copperheads are now making a disgusting exhibition. To say nothing of Democratic States which at one time or another have permitted negroes to vote, the white man's government which Copperheads now clamor for, is one based on the idea of negro representation for half the country. To base representation on voting population, they hold to be monstrous. To base it on the entire population, negroes included, one negro being equal to one white person, is the Democratic idea of a pure "white man's government." They can't endure the idea of a negro walking up to the polls and voting, but the idea of voting *for* them, counting in all the negroes with all the whites, on a perfect equality, to constitute a basis of representation, is very tolerable! yea, most desirable, and withal, Democratic. Democrats have no repugnance to associating whites and blacks on the "dead level" of equality when it enures to Democratic advantage.

President Johnson announces that Secretary Seward has transmitted copies of the constitutional amendment to the various Governors of States but he, Johnson, wishes it distinctly understood as not involving the Executive sanction." Considering that the "Executive sanction" is no more in this particular case than that of any other citizen, this is almost as good as Henry A. Wise's proviso to his oath, taken in a Virginia court to enable him to practice in it. Wise informed the court that he would take the oath, but he wished it distinctly understood that it should not involve his assent to the division of Virginia.

Copperheads do a great deal of vain boasting about their devotion to the constitution and laws. It is nevertheless, a notorious fact that in those localities where law is most flagrantly violated and held in contempt, the copperhead vote is invariably the largest. It is uncertain whether the lawlessness accounts for the large copperhead vote or the preponderance of copperhead population accounts for the lawlessness. The two, however, go together as constantly as the Siamese twins [illegible] *Idaho* and portions of Eastern Oregon and Washington Territory.

CONSIDERATE.—The Legislature of Georgia has passed a law relating to marriage. It provides that marriages between colored people shall be solemnized in the same manner as between whites. This is for the benefit and protection of the "niggers." It further provides that whites shall not intermarry with the blacks. This is for the benefit and protection of Democrats. 'Tis well.

CLARKE COUNTY MINES.—An arastra has been working for several days at the mines near Vancouver and the first clean up was to have been taken yesterday. To-day the company hold a meeting to decide about erecting a quartz mill—it was thought the enterprise would prove successful.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JUNE 24.

Congressional

WASHINGTON June 24.—The Senate to-day [illegible] through a third of the pages of the tax bill, leaving one hundred and fifty of the two hundred and forty pages.

The House passed the army bill [illegible] with an amendment requiring that in all cases where volunteer officers are taken into the regular army they shall have the same rank or grade they held in the volunteer service [illegible]

[illegible] Mr Stewart [illegible] Summer's bill [illegible] any State or territory may provide for working mines involving drainage [illegible] necessary to their development and these [illegible] fully expressed [illegible] Mr Stewart explained [illegible]

[illegible] introduction of bills looking to what miners regard as a general system of confiscation by the absolute necessity of some system of guaranteeing to capitalists returns for their investments. To extend to the miner the pre-emption applicable to agricultural districts is [illegible] possible. Nature does not deposit precious metals in regular forms discriminating between perpendicular [illegible] of earth, nor will it do to sell lands in advance of discovery, for this would stop operations and tend to speculation which would never find mines. Your committee have therefore prepared a bill which may be improved by experience, but your committee [illegible] apprehend evil consequences from any material change in the plan at this time. The system of free mining [illegible] mineral lands open to exploration and occupation subject to legislation by Congress and localities. It recognizes obligations of Government to respect private rights which have grown up under its tacit consent and approval. It proposes to allow miners who have occupied, or may hereafter occupy and improve any mines in good faith and according to the local rule to purchase at the rate of five dollars per acre and receive a patent therefor in such form as shall grant the mine with its deposits to any depth with such reasonable amount of surface as the miners shall determine by local laws to be necessary for working the same. It also provides, in case of [illegible] as to right of possession for determining that [illegible] in local courts, where miners laws are understood and facilities administered. It makes the public survey conform to nature and [illegible] the survey. It requires the payment of three per cent on the net proceeds into the Treasury until the Department shall [illegible] been paid which is in lieu of the stamp tax. It furnishes all actual settlers quieting titles to their [illegible] by segregating of agricultural from mineral lands, and [illegible] the rights to use of water and right of way for ditches as established by local law and the decision of the courts. In short it proposes a new system, [illegible] regulates and confirms a system to which the people are devotedly attached and removes those doubts and uncertainty which have recently retarded the growth and prosperity of our mining communities. In my opinion this bill will furnish homes to thousands of families and will furnish titles and increase the product of precious metals. The proposed tax is not large and will not be oppressive but is all the subject will bear. This is just 3 per cent, more than the farmer pays on the net proceeds of his farm, but those who have no productions have nothing with which to pay and the miners never refuse to pay as long as they have money.

An Appointment from the Pacific Coast

WASHINGTON June 20.—Dr. Czarpky of San Francisco who has been acting as Commissioner of the United States at the International Exhibition in Prussia had been appointed by President Johnson as Consul General to the Danubian Principalities.

Approval of Bills—Postal Money Orders

WASHINGTON, June 22.—The President has approved bills giving bounties to colored soldiers, and pensions, bounties and allowances to their heirs as well as the bill giving facilities to postal and military communication among the several States. This bill authorizes Railroad connection so as to form a continuous line.

The important changes in the Post Office Money Order System, go into effect July 2d—orders may be issued for $50 and be valid for one year.

Union State Convention in Maine.

BANGOR, Me., June 21.—The Republican State Convention was attended by 16 Delegates. They nominated Gen. J. Chamberlin of Brunswick for Governor and adopted a series of resolutions that all men, without distinction, color or race are entitled to inalienable civil and political rights endorsing recent constitutional amendment and expressing confidence in Congress.

OUR SAN FRANCISCO DISPATCH

SAN FRANCISCO June 28.—The suit of Fred Collier vs Joseph P. Nourse and the Burning Moscow gold and silver mining company was tried before Judge Sawyer to-day and submitted. The action was brought to set aside a sale of 3,350 shares of Burning Moscow stock for delinquent assessment which were purchased by Joseph P. Nourse Secretary of the Moscow Company. The plaintiff claims that the assessment in the first instance was illegal inasmuch as the stock was not all issued at the time it was levied, and that the sale was enjoined by an order of the 4th District Court and was consummated on the face of the injunction.

The defendants claim that the injunction was served on an election day, which, under our statute, was a non-judicial day, and consequently of no effect. At the time of sale it was understood that the Ophir Company had purchased a controlling interest in Moscow stock and it is said this rumor prevented many people from purchasing. It now transpires and was admitted in Court to-day that the 3,350 shares standing in Collier's name which were purchased by Nourse at said sale, were held in trust by Collier for the Ophir Company.

The forthcoming celebration of the National Holiday promises to be a magnificent affair. Invitations to join in the procession, have been accepted from all the army and navy officers in the city from all the foreign consuls and from numerous associations benevolent societies trades, etc.

The Universal Life Insurance Company yesterday paid the money, $10 000, on the life insurance policy of Chas Spencer to the widow of the deceased. The money was paid by telegraph, on the same day that proof of the death arrived at New York. Spencer had only paid one instalment. Up to noon to-day 4,052 citizens names had been entered in the great register.

G Cello has commenced suit in the 15th District Court to recover $4,000 damages for alleged false imprisonment brought about at the instance of N O Donnell, whom he sues.

George Martin and Richard A. Nettleship owners of the British bark *Kent* have commenced suit in the U S District Court against the steamer *Oregon*, to recover $10 000 damages for the collision. The libellants allege that the collision was the result of carelessness on the part of the officers of the steamship, and a want of proper skill, attention and diligence.

John Walch was yesterday held to answer before the County Court on a charge of assault with a deadly weapon on Capt Henry J Johnson, on the steamship *Del Norte*.

By the ship *Garland* 45 days from Hong Kong China dates to May 8th, nearly two weeks later than by previous arrivals are received. The first train at the new mint at Hong Kong was struck off May 7th.

The war ship *Opossum* returned to Hong Kong May 6th, having recaptured a salt junk seized by the pirates worth nine of the original. The crew on board a number of pirates were captured but the rest escaped. One of the captured ones was a noted offender. Two Chinese piratical junks seized by an English war vessel were recently declared to be lawful prizes and sold for the benefit of the British Crown. Our files contain no news from the interior.

Sir Harry Parker is reported to have completed important negotiations with Japan but the details of them have not come to hand.

LOS ANGELES June 28.—The body of McGuire was found about 100 yards from where that of McGee was lying. McGuire was shot in the breast. No trace has yet been discovered of the murderers and up to the present time no steps have been taken to find them.

NAPA June 28.—The Napa flouring mill on Main street was entirely destroyed by fire at 4 30 o'clock this morning. Loss $15,000, insured for $5 000. The origin of the fire is unknown.

IMPORTANT TRANSFER—A NEW STEAMER

The [illegible] Weekly of the 18th says:

An important negotiation it is reported has taken place [illegible] property of the [illegible] Bellingham Bay Coal Company in this territory and the Black Diamond Coal Company of Mount Diablo, California. The purchasers consist of a number of San Francisco capitalists.

Capt. [illegible] has purchased [illegible] in San Francisco the steamer *Jane McNear*, which will be used as a [illegible] and will arrive [illegible] a few days.

Protection No 4.—Drill this evening at 8 [illegible] By order of Acting Foreman. H HEUSCHUCH [illegible] Secretary. [illegible] June 29th 1866.

Multnomah No 2.—Drill this evening at 7½ o'clock promptly. W. H. LEONARD Sec'y.

COOLEST SPOT IN THE CITY.—ELLSWORTH & CARDWELL can safely say that their *Photograph Gallery* 69 First Street is the coolest and most comfortable place in town. Sitters for PICTURES at this GALLERY are noted for the pleasant expression of their countenances which may be owing to the above important fact.

Portland R. A. C. No. 3.—Regular Convocation on the second Thursday evening of each month. By order of M. E. H. P.

C. H. MACK,

DENTIST,

Assisted by J. H. HATCH, D. D. S., of the Pennsylvania College of Dental Surgery, late of San Francisco, California. It is sufficient commendation that he is endorsed as a Dentist of Superior Skill and a Gentleman by Messrs R. H. McDONALD & CO., DR. COLE, Dentist and many others of San Francisco.

The Patronage of those desiring FIRST CLASS and FINISHED OPERATIONS is particularly requested.

Annual Message of the Mayor.

ORGANIZATION OF THE NEW BOARD OF CITY [illegible]

At an early hour last evening the Council Chamber was filled with people to witness the first session of the new Board of Councilmen.

The Board was called to order by Mayor Failing and the Clerk called the roll, when the following members answered to their names: Messrs W. H. Bennett, T. J. Carter, J. C. Carson, A. B. Hallock, J. P. O. Lownsdale, John McCraken, M. O'Connor, A. Holtzheimer. Mr P. Schuyler jr. was absent on leave for [illegible] days. The records of the previous meeting were read and approved.

The following annual message of the Mayor was read and ordered printed:

To the Honorable the Common Council:

The following statement of the condition and affairs of this Municipal Corporation is respectfully submitted as required by Section 40 of the City Charter.

In my last annual communication to the Council, it was estimated that the amount then remaining in the treasury, together with the estimated revenue from licenses, would be nearly or quite sufficient to defray the expenses of the city for the fiscal year ending December 31st, 1865.

In addition to the ordinary expenses, the following appropriations were subsequently made, not included in the estimate made in June last:

Payment of judgment of John B. Garris against the city (for personal injuries sustained by him some four years since) confirmed by the Supreme Court at the Sept term, 1865	$6 410 4[illegible]
Amount of the general fund for construction of sewers, disapproved, and finally passed by a vote of two-thirds of the Council	4 657 [illegible]
Paid for W. W. Chapman's title to block known as South Market Square	1 200 00
	$11 271 [illegible]

These items, together with [illegible] appropriations for surveys, swelled the audited indebtedness of the city at the close of the fiscal year to $11 700. It was therefore found necessary at the commencement of the present year to levy a special tax to meet the deficiency. The taxes were levied as follows:

For city indebtedness, four mills. For current expenses for the year ending December 31st, 1866, two mills. For improvement of navigation of Willamette River, three mills, amounting in the aggregate to	$43 001 40
Amount collected	43,489 55
Leaving delinquent tax on personal property not found, errors in assessment, and taxes on real estate purchased by the city	$512 91
Of the amount collected there was applicable to the payment of indebtedness and current expenses	$32,680 41
The income from licenses for the first half of the fiscal year has been	7 710 11
	$40 392 52

At the commencement of the year the estimated revenue of the city from taxation and licenses was appropriated for defraying current expenses, and making such improvements as were contemplated by the Council.

The balance remaining in General Fund June 30th, against which no warrants have been drawn is	$15,080 47
Estimated receipts from licenses for the remainder of the year	7,500 00
	$2[illegible],580 47
Balance of appropriations for the year ending December 31st, unexpended	19,707 75
Estimated surplus December 31st 1866, in excess of appropriations already made	$2,762 72

The appropriations of January last were carefully made, based upon the expenses of the preceding year, and with the exception of a few items, the amounts appropriated will be ample.

It is anticipated that there may be a deficiency in the appropriations for the following items: Pay of Surveyor and Assistants, board of prisoners in city jail, gas for street lamps, [illegible] of Recorder's Court.

Other appropriations are probably in excess of the amount which will be required, and with proper economy, there need be no deficiency in the general fund at the close of the year.

I urgently recommend that all general appropriations be made in a similar form to the appropriations made at the commencement of the present year, specifying the amount for each item. No appropriation should be made to the Executive of the city without specifying in advance the particular object thereof, and the labors of the Council would be greatly decreased by making appropriations for each item of expense. This is forcibly illustrated by the fact that appropriations [illegible] have been required in addition to [illegible] appropriation ordinance passed in January [illegible] special objects which could not have [illegible] at the commencement of the year.

The following is an exhibit of the Tax Roll for two years past:

Amount levied 1864		$51 711 35
[illegible] tax on real property	$992 25	
[illegible] personal property [illegible] property not found	520 20	1,512 41
		50,198 90
Amount levied 1865		43,997 46
Amount of real estate sold to city, and personal property not found		$542 91
Amount collected		43,415 55

An application was made to the Circuit Court during the present term, to dissolve an injunction granted prior [illegible] restraining the sale of real estate for taxes levied [illegible] amounting to $242 25 and the amount will, with [illegible], be collected during the ensuing month. To show the marked improvement in the collection of taxes, it is only necessary to state that during 1864 and 1865, seven per cent. of the entire amount levied for the year 1863, was collected after having remained [illegible] delinquent, while the amount delinquent on [illegible] property levied in 1864 and 1865, is about one [illegible] of the entire amount levied.

The [illegible] of maintaining the Recorder's Court is now [illegible] burden upon the tax-payers, and deserves [illegible] attention of the Council.

The following is an exhibit of the comparative receipts [illegible] of the Recorder's Court exclusive of the [illegible] of prisoners for the latter half of 1865 and the first [illegible] of the current year:

Expense to the city ... $1,268 48

No appropriation was made for expenses of Recorder's Court for the present year, as the estimates were predicated upon the appropriations of the preceding year, when there was a source of revenue to the city; but unless some action is made, there will be a large appropriation required for deficiency at the close of the year.

The expense of boarding prisoners in the city jail for the past six months has been a trifle over ($600) Five hundred dollars. The attention of the Council was called to this item of expense in my communication of June 22, 1866, and the allowance was reduced by the Council twenty-five per cent.

The fees of the Recorder and Marshal when acting under or enforcing the laws of the State are prescribed by the Charter, but full power is given to the Council to prescribe by ordinance such fees and compensation to the Recorder and Marshal as they may think proper for acting under and enforcing city ordinances.

During the past two years the compensation for all city officers formerly entitled to fees with the exception of Recorder and Marshal, has been changed to an annual salary and in every instance with good effect, particularly in the collection of taxes.

The Council has also full power to provide for the working of any person sentenced to imprisonment for violation of city ordinances, upon the public streets or squares. Having full control over this matter the Council will fail in justice to the tax payers, if they do not at once reduce this expense. The pay of Deputy Marshals ($100 per month each,) board of prisoners, and pay of Recorder and Marshal for fees in Recorder's Court has amounted in the aggregate, for the past six months, to about [illegible] three thousand dollars or ($500) five hundred dollars per month *in excess of the revenue from fines for violations of ordinances.*

The work of improving the Willamette river was committed by the Council to the standing Committee on river [illegible] and they have been fully authorized to contract for the building of all necessary apparatus, hire [illegible] and do everything that may be necessary to complete the work.

For this purpose all the money raised by taxation for the improvement of the navigation of the river has been [illegible] appropriated and the balance of the appropriation remaining unexpended is $1 048 69.

The dredger contracted last year did not fully answer the purpose, and the Committee have contracts for additional apparatus [illegible] contracts for the construction of which are now on file as follows, viz:

Oregon Iron Works Machinery	$5 000 00
[illegible] Dredger Boats	3 476 00
[illegible] cost of additional boats	1,500 00
	$10,375 00

[illegible] these contracts, and furnish the necessary funds to proceed with the work, authority has been given to the same Committee, to negotiate a loan not to exceed twenty thousand dollars, and payable in not less than five years.

The tax levied for general purposes levied in 1864 and 1865 amounted to nineteen mills on the dollar. Assuming that there will be no deficiency at the close of the present year the amount levied will have defrayed the expenses of the city (exclusive of river improvement) from April 15 1863 to Dec. 31, 1866, a period of two years and nine months besides paying indebtedness contracted prior to April 15 1863, and judgment of J. B. Garrison, together amounting to $10,088 51. The latter amount exceeds five mills on all the taxable property, making the average tax per annum one half of one per cent. for general purposes.

During the past two years large outlays have been made for sewers, erection of new gas lamps, replacing wooden posts with iron, street surveys, purchase of South Market Square, improvement of Public Plaza, and purchase of one fire engine; as the appropriations for special objects have exceeded the average amount necessary per year, it is hoped that the tax for general purposes the coming year may be reduced to four mills on the dollar.

The streets improved by the city [illegible] during the past twelve months, all of which are finished, except one [illegible] which will be completed [illegible] months are as follows, viz:

Front street Morrison to Harrison	$3[illegible] 0
Do do Pine to Morrison	19 [illegible] 80
Washington street Front to East Park	9 885 10
Madison street Front to Park	6 4[illegible]
First street Alder to Madison	24 234 90
Front street Pine to Couch street	14 [illegible] 10
	$106 [illegible] 70

The entire amount of assessable property real and personal within the corporate limits, being less than $[illegible] [illegible] is but a fraction less than three (3) per cent. of the entire taxable property of the city. The amount of assessments [illegible] [illegible] make the amount expended for street improvements [illegible] twelve months six (6) per cent. of the assessed value of all the real and personal property within the city [illegible] or twelve times the amount annually levied in any one year by the city for general purposes.

This statement is sufficient to fully illustrate the utter impracticability of improving streets upon any other plan [illegible] until the charter was so amended as to permit the summary [illegible] of collecting street assessments [illegible] real estate [illegible] improving [illegible] [illegible] greater portion of the indebtedness [illegible] [illegible] they have [illegible] been compelled [illegible] the method of taxing the property [illegible] Fortunately [illegible] [illegible].

The right of the city to assess real estate for street improvements was contested in the Supreme Court at its last term [illegible] in favor of the city. [illegible] been [illegible] during all the period [illegible] the city has been [illegible].

Some of the principal [illegible] of the charter covering street improvements which were at first thought to be harsh and tyrannical by owners of real estate have since met their almost unanimous approval. The letting of contracts by the city secures uniformity in the work, and the summary mode of collecting assessments insures prompt payment to contractors in cash and consequently competition in bidding so that the work is done at a lower rate than property holders can make limited improvements. Although the charter provides that assessments may be collected before the work is commenced the city has not issued warrants for the collection of assessments any sooner than required to pay contractors as the work has been completed.

No provision is made in the Charter for the partial improvement of a street. I think it would be wise to procure an amendment to the Act to provide for the improvement of a street, by constructing sidewalks, or covering a portion of a street, in localities where a complete improvement would be burthensome to owners of real estate, but also providing that a further assessment for improvement might be made by the Council whenever deemed necessary.

When the Charter was passed it was supposed that the streets improved by order of the Council would be paved with stone and it was provided that repairs should be made out of the general fund. As the most expensive improvements made thus far has been of less durable material, it is desirable that the power should be expressly given to the city to order the repairing of any street when necessary at the expense of the property notwithstanding the property may have been previously assessed for street improvement, and thus remove the ambiguity of Sections 106, 107 and 108 of the Charter.

I recommend that the balance remaining unexpended, of the appropriation for repairs to streets improved under the direction of the Council, ($757,) or so much thereof as may be necessary, be expended before the rainy season returns.

Owners of real estate in making improvements are commonly guided by the street monuments located by the city authorities, and although the city is only required to mark out the public streets, and squares the Council should take all steps in their power to secure correct surveys so that property owners may not be misled. I therefore suggest that an additional engineer be employed when monuments are erected to re-survey and report upon that work before the monuments are recognized by Ordinance.

It has been considered doubtful whether the power and authority given to the Council in Section 78, to improve streets, includes the construction of sewers at the expense of the owners of the adjacent property.

What has been said about the impracticability of improving streets by general tax, will equally apply to the construction of sewers, and equity and the common usage in other cities are both arguments in favor of draining the city at the expense of the real estate benefited.

During the past year the Council ordered the construction of sewers from First to Front street to be paid out of the general fund. The Ordinance was returned to the Council without my approval, but subsequently passed by a two-thirds vote. A petition for similar work at the expense of the city has since been denied, the Council upon more mature consideration having concluded that it was unjust to the tax payers. Whether an assessment upon the adjacent property for the construction of sewers would be equitable, would depend somewhat upon the plan of sewerage. The Council should first adopt some uniform system of drainage and then procure an amendment to the Charter providing for an assessment of the cost upon the property benefited.

The suit of the city against Leland and Stunt for the recovery of the North Market Square has finally been terminated by a decision of the Supreme Court in favor of the city, and the city is now in p[illegible]

I recommend that the streets adjacent to the Square be graded, and such steps be taken as will secure the property to the city for the purpose for which it was originally dedicated.

The suit commenced by the city against W. W. Chapman for the recovery of the South Market Square, was terminated by a purchase of the title in fee from Chapman for twelve hundred dollars. The purchase was a wise one, as the property is valuable, and the city is now at liberty to sell or use it for any purpose. I recommend that the property be held for public purposes and that it be leased for a term of years, and made a source of revenue.

No judgments have been rendered against the city for personal injuries during my term, except the judgment of John B. Garrison referred to and there are now no suits against the city except the suit of Amos N. King to recover taxes levied and collected in 1865 and paid under protest.

The City Jail is in a bad state of repair, and in an unfit condition for the confinement of prisoners during the winter season.

During the past year, the Council made an appropriation by ordinance for the purchase of the grounds known as Mt. Crawford Cemetery. The county attends to the interment of all who are a county charge. I do not think the purchase and adornment of a cemetery a proper charge upon the corporation. It would be a perpetual expense to the tax payers, and could be much better accomplished and better care of the grounds secured by leaving it to the enterprise of individuals, or an association formed for the purpose. For these reasons the ordinance was disapproved.

Deeds to portions of the real estate purchased by the corporation some years since, are not found among the city papers. I recommend that the City Attorney be instructed to prepare abstracts of title to all property owned by the city to be filed with the City Auditor.

The Fire Department has been managed with economy during the past year, and much praise is due to the members of the Department, for an almost entire exemption from loss by fire. It has not been thought wise heretofore to purchase steam fire engines for use in the Department owing to the impassable condition of the streets in the winter season and because the number of hand engines owned by the city was thought to be ample for our present necessities. Steam apparatus will be furnished to the Fire Department before many years and two or three steam engines will be found more economical than the maintenance of companies sufficient to work the number of hand engines which would be necessary. The city owns four lots and buildings now used by the Department, and it will be several years before a greater number of steam engines will be required than these houses would accommodate.

Anticipating this, I think it unwise to purchase any more ground for engine houses and therefore recommend that the city continue to rent whatever additional buildings are necessary.

A statement is herewith submitted exhibiting the appropriations for general purposes from January 1st to June 30th, 1866, and the amount expended on each appropriation.

Messrs J. J. Ward, J. S. [illegible] B. [illegible] W. McMillen [illegible] were placed in nomination for the office of Street Commissioner and after [illegible] ballots [illegible] the Council adjourned without effecting a choice.

PUBLIC SCHOOLS.—The Central School of this city will close [illegible]. Under the direction of [illegible] Our citizens [illegible] there will in course of [illegible] next year [illegible] fine substantial improvement will be made upon a block of land in the Fifth Ward, lately purchased by the board of Directors for the purposes of a school. The First Ward house should be a larger one than that for the Second Ward, as it has the largest number of scholars from that division of the district, we are informed, which will be the means of giving more satisfaction than if a wooden building were put up. It was thought at the Directors [illegible] hire the Academy building of Madison street for school purposes during the coming fall and winter [illegible], which would be a good arrangement, but we are not advised as to the course in that respect. Another school is very much wanted in the city.

CHERRIES—AND HOW TO BOTTLE THEM.—There is now [illegible] out [illegible] cherries in this market [illegible] sell them for [illegible] from six to nine cents [illegible] [illegible] fruit in boxes of powdered lump sugar, fill the jars with fruit, shake the sugar over and tie each jar down with two bladders, as there is danger of one bursting during the boiling. Place the jars in a boiler of cold water, and after the water has boiled, let them remain three hours, take them out, and when cool, put them in a dry place where they will keep over a year.

CIRCUIT COURT.—E. D. SHATTUCK, Judge. Thursday June 28 1866.—Ella Smith, Roman Dorlos and Edward Constable vs the heirs of D. H. Lownsdale deceased. Decree according to the prayer of complaint. A. C. Gibbs & Co. vs the *General Grant*. Judgment for $218, and order of sale of boat to pay or satisfy the same. State vs [illegible] L. Peck. Judge rendered verdict of not guilty of perjury. Defendant discharged. State vs Ed. Hitch alias J. F. McCoy appointed counsel for defendant. Defendant duly arraigned and plead not guilty. Case set for trial July 10th. The trial jurors were discharged till the 10th of July, at 10 o'clock A. M.

CONUNDRUMS.—There is a terrible conundrum-mania now raging throughout the country, and it has made its appearance in this vicinity, where it has continued unabated in its most virulent form for many weeks. The worst attack we have heard of was upon one of our "artists" who was asked: "What was Eve made for?" "Why" he answered "For Adam's *Express Company!*" to be sure. Our friend is a merry, waggish fellow, much given to jesting, and the attack had the desired effect, rendering his countenance as bright as the stars, a perfect embodiment of joy, such as might be expected upon receiving a sentiment calculated to vigorously exert the risibilities.

NED KELLY.—Ned Kelly—everybody knows Ned—and P. T. Barclay are preparing to close the celebration of the Fourth at Oregon City with a ball which, we have no hesitation in saying, will be worth the while of all pleasure-going people to attend. Good music, a good hall, an A No. 1 supper to say nothing of the pretty women of Oregon City will be among the attractions. Supper by Barlow, which is "nuff sed" on that point. The P. T. Co's steamer will make a trip to Oregon City in the morning and again at night, returning at 5 o'clock A. M. next day, so that everybody can attend without inconvenience.

QUICK TRIP.—In a conversation yesterday about quick passages by sailing crafts none were mentioned that could beat the time of the fine bark *A. A. Eldridge*, Capt Abbott now in port from Honolulu. She made the round voyage from Astoria to Honolulu and back in *fifty seven days*.

EPISCOPAL CONVOCATION.—The annual convocation of the Protestant Episcopal Church in Oregon and Washington Territory will meet in St. Stephen's Chapel this morning at 9 o'clock. Public service at 10½.

DEFERRED.—In order to give the message of Mayor Failing entire this morning, several items of a local character are necessarily deferred.

SAILED.—The steamship *Fideliter*, Capt. Erskine, left at 10 o'clock last evening for Victoria, with about forty passengers and sixty tons of merchandise, produce, stock, etc. The manifest shows the following exports: 1,100 [illegible] flour, 56 sks wheat, 144 packages, 45 head fat sheep.

SCHOOL EXAMINATION.—We are requested to announce that the annual examination and distribution of premiums, will take place at the Holy Angels' College Vancouver to-day.

UNKNOWN MESSAGE.—There is a message at the telegraph office for G. A. Warren.

All Persons should test the merits of DR HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage it is unequalled as a tonic and invigorator. In the pursuit of fortune at the mines [illegible] many persons are exposed to the attacks of complaints of the digestive organs and of various kinds of fever. It is the very article that has so long been in demand at the [illegible]. Its daily use will restore the tone of a deranged stomach, [illegible] vitality to the digestive function [illegible] and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry weather [illegible] be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health. Sold by Druggists and dealers everywhere. je20 HODGE CALEF & Co 97, Front St

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

Which are now recommended by the highest medical authorities, and warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure, and must supersede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars see circulars and testimonials around each bottle.

Beware of impostors. Examine every bottle. See that it has our private U. S. Stamp unmutilated over the cork with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or in bulk is an impostor. Any person imitating this bottle, or selling any other material therein whether called Plantation Bitters or not is a criminal under the U. S. Law and will be so prosecuted by us. We already have our eye on several parties re-filling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c., is incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

G. VENARD,

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior a relatively higher price, excites the cupidity of some manufacturers and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial but only adds to the favorable opinion of the consumer, the very flattering though unwilling testimony of the counterfeiter. Nevertheless, buyers should be forewarned and placed on their guard against this practice.

Learning to Walk.

Only beginning the journey,
Many a mile to go;
Little feet, how they patter
Wandering to and fro.

Trying again so bravely,
Laughing in baby glee;
Hiding its face in mother's lap,
Proud as a baby can be.

Talking the oddest language
Ever before was heard;
But mother (you'd hardly think so)
Understands every word.

Tottering now and falling,
Eyes that are going to cry;
Kisses and plenty of love words,
Willing again to try.

Father of all, oh guide them,
The pattering little feet,
While they are treading the up-hill road,
Braving the dust and heat!

Aid them when they grow weary,
Keep them in pathways blest,
And when the journey's ended,
Saviour, oh give them rest.

THE IMPERIAL SPEECH AT AUXERRE.—The Paris correspondent of the London *Times*, writing May 10th, says:

Burgundy would seem to be especially selected by Emperor Napoleon to speak his mind to those who differ from him. When the peasants of Auxerre were told the other day that it was only with them and those like them that he discerned the true genius of France, and that it was only among them he "breathed freely," it was as if he had said that the enlightened population of the large towns were the enemies of the poorer classes. What the legislative body against which, in particular, the Imperial excommunication is hurled, may do [illegible] it is hard to determine. The Deputies have not what is called "the right of interpellation," and even if they had, the Minister would plead irresponsibility to anybody except toward the Emperor, and the Emperor, as you know, is responsible only to his conscience and to the nation. They have no choice but to submit, unless the spirit that raised the minority to 46 survives the provocation and the 46 swell to 146.

I have said that Burgundy seems the spot specially chosen for displays like the present. It was at Dijon, the ancient Capital of the Duchy, that the President Louis Napoleon, as he was then, first publicly denounced the Legislative Assembly and designated it as "ever ready to vote measures of repression, but invariably refusing him all the beneficent measures he demanded for the good of the country." It was on the same occasion he gave a significant hint of what was coming. "Whatever be the duties which the country imposes on me, it will find me resolved to carry out its will, and you may believe me when I tell you that France shall not perish in my hands." I remember the stupefaction depicted in the countenance of the Minister of the Interior, Leon Faucher, who was sitting at the table next to the President, when he heard this defiance flung at the Assembly, and it was curious to witness the perplexity of many of the guests, who did not well know whether to applaud or remain silent. Leon Faucher, who knew no more of what the President was about to say at Dijon than M. Rouher and his colleagues the other day at Auxerre, started up from the table as if suddenly attacked by illness, left at once for Paris and arrived just in time to prevent the *Moniteur* from publishing these dangerous words. They were known, however, in Paris, the following day. Questions were asked in the Chamber—for the representatives of the people were in those days allowed to ask questions—and Leon Faucher declared that he had no knowledge whatever of any speech at the Dijon banquet, except the speech that appeared in that morning's *Moniteur*, and the *Moniteur* did not contain the words alluded to. This declaration of war against the Assembly took place on the 1st of June, 1851, in six months after, nearly day for day, came the *coup d'etat*.

The day the Auxerre speech appeared in the *Moniteur*, it was rumored in Paris that in his short address to the Mayor the words about the treaties were not spoken by the Emperor, and persons who were by, declared that they never heard them. It was on the Emperor's return to the Tuileries that he wrote them out and sent them to the *Moniteur*. The irritation of the Deputies has not cooled down, and in vain the Ministers try to explain away the words intended for them. At the last reception at the Tuileries the Emperor made it a point to be particularly gracious toward the members of the Legislative Corps who were present, but his compliments were received by them in silence, and their demeanor indicated that they deeply felt and still resented the lessons given them.

THE ATTRACTIONS OF UTAH.—Reversing the usual order, the Salt Lake *Telegraph* gives the following description of the experience awaiting the emigrant to Utah: You come to Utah in the fall, and you have to cast about for work to earn something to sustain you and yours through the winter at least, as perhaps you are not an adept at scheming a living, or you may have conscientious scruples against that sort of doing, which is all right enough, as it would never do for everybody to be a clever schemer and nobody an industrious worker. You go and cut somebody's corn on shares and in shucking time you have a few bushels of corn. You go and tend a molasses mill or boiler and get a few gallons of molasses. You go and dig potatoes and carrots and beets, and get a few bushels of each of those things. You stand and assist at the threshing machine and get a few bushels of wheat. By this time you will see the snow, and the snow will stick most likely. Then you go into the canyon and cut and slide or haul wood, and get your wood for the winter and next summer, and a pair of boots and a shirt and a pair of pants and five dollars for tea, sugar and coffee, and a chunk each of meat and bacon, and your three toes frozen off each of your feet, and your ears and nasal organ also nipped by the hoary gentleman. You save your figers by blowing hot occasionally and by thrusting them into close contact with your manly bosom. And, thus you pass the winter interestingly and profitably. By this time you will need a little recreation, so you will rest and recruit, go to a dance or two, to the theatre and look about you and enjoy yourself generally, while the snow melts and the sleet and rain drain away and the soil dries to working condition. Then you will take some land to work on shares, and all the fine spring days you will be busy plowing and putting in your crops. Then you will help clean out and fix up the irrigation canals, ditches, dams and gates. Soon your early crops are up, and the weather is dry and the crops look as if they had hardly decided whether to go on to perfection or go back to nothing, and if a shower don't help them, you take your first lesson in irrigation and over do it. The crickets or grasshoppers, or both, come and help themselves to half your young crop. You plant again, if you choose. Next thing is high water and you have to fight the obstreperous mountain streams, to keep them from destroying your crops, and a nice job it is, too, to watch and control the turbid current almost night and day. Watch making is nothing to it. Then irrigation comes on in earnest, and every week or two, night or day, as your turn comes, you have to irrigate your crops, and by and by the water fails before you have half watered your field and a portion of your crop dries up. Then the prairie fails and your neighbor's cattle taste your wheat and corn, and won't be satisfied with once tasting. At last you harvest what is left of your crops, what high water and drouth and grasshoppers and crickets and breachy cattle and saleratus have not appropriated. It is August, and hot and dry it is and no mistake. You never were so thirsty in all your life. You drink of City Creek and are dry, drink cider and are dry, drink 'kinbwater alias 'forty rod,' alias 'glycerine,' alias *ad libitum ad infinitum*, and are dry, you keep drinking and still are dry, and finally you explode and and that is the last of you. Let the information go north, south, east and west through the States, side by side with the golden stories, that fortune hunters may take their choice which to believe.

A HORNED RATTLESNAKE.—The Virginia City *Enterprise* says:

As a memento of the Pahranagat expedition and a specimen of the reptiles pertaining to the hitherto unknown desert regions of the southern portion of our State, a queer species of rattlesnake was captured and brought in from Death Valley, which is now in possession of Rev. A. F. White, of Carson. This snake is about a foot long, of a dark brown color, having only two rattles on his tail, while his head is adorned with a pair of horns about half an inch in length, formed of a fleshy substance, and somewhat resembling those seen on a horned toad. This "snaik" is a very lively and vindictive little wretch. On its arrival in Carson it was shaken out of the jar or pickle bottle in which it was kept, in order to treat it to a crawl in the warm sand, but the two-rattled villain became belligerent and showed fight, striking at everybody around.

At the late Women's Rights Convention in New York city, Henry Ward Beecher, in the course of some remarks, consulted a Testament, and then handed it to Mr. Theodore Tilton. The latter then told a story about ten clergymen who were recently gathered together, none of whom had pocket Testaments, but every one of whom produced a cork screw when called on to open "a champagne bottle." Mr. Beecher doubted the truth of the statement, for "he was ashamed to say that he was sufficiently well acquainted with such subjects as to know that cork screws are not used for champagne."

Miscellaneous Items.

Prince John Van Buren, the weathercock politician and Rebel Beauregard have sailed for Europe on the same steamer. They better remain there.

It is proposed to hold a great Southern Educational Convention during the coming summer.

The Episcopal Church is increasing in numbers in this State. During the last year there were 151 confirmations in the Diocese of California.

General J. C. Pemberton has purchased the place of Mrs. Sullivan, three miles and a half from Warrenton, Virginia, containing 202 acres, for $4,000.

Twelve hundred head of cattle, two thousand hogs and one thousand sheep are daily deprived of life at the new city slaughter house near Chicago.

Colonel Norton, a brother of the Senator Norton from Minnesota, has been appointed Superintendent of Indian Affairs in New Mexico and was in Leavenworth on the 20th on his way West to take charge of the office.

Judge Abell of the First District Court at New Orleans, has decided the Civil Rights bill to be unconstitutional, and not binding. The Court argues that the present Congress is unconstitutionally constituted.

During the first quarter of this year 16,000 persons, including 4,460 women were arrested at New York. Of the whole number, 9,261 were single and 13,582 could read and write. The total amount of property lost was $2,201,730, of which only $637,118 was recovered.

Garibaldi is to have a prominent part in the approaching war between Italy and Austria, for the possession of Venetia. He has had an understanding with the Italian Government, and is to command the volunteers in person, with head quarters for the present at Florence.

The remains of the rebel Major Thomas H. H. Clay, grandson of Henry Clay, have been exhumed at Atlanta, and will be reinterred in the State Cemetery at Frankfort, Kentucky. Major Clay died in Atlanta in 1865.

A portion of the eighteen hundred negro troops ordered to New Mexico have arrived there, and all the California Volunteers are being relieved and discharged. They will come home through Arizona.

George Long has just arrived from Silver City, says the Lassen *Sage Brush*, and reports that the Indians in that section still continue to commit their depredations upon the Chinamen traveling to the northern mines, and that 92 were murdered and left scattered along the road, within the distance of thirty miles.

It is proposed by the Quartermaster General to establish three national cemeteries in the Department of Georgia, to which will be removed all the bodies of Union soldiers which do not now rest in graveyards or other permanent and decent grounds, viz: At Atlanta, Andersonville and either Savannah or Milton. There are supposed to be about thirty thousand bodies of Union soldiers in the Department of Georgia.

The Roxbury (Mass.) *Journal* calls the refusal of the President to hold discussion with Fred. Douglas, "a case of shrewdness," and says: "It was eminently discreet in the President to discountenance argument on the part of Fred. Douglas, in their interview last week. Douglas would have floored him in reasoning from such premises as he laid down, in five minutes, and the spectacle would not have been one the nation could witness with pride, even if it had in it edification."

The Legislature of Florida, at its last session, granted a charter to a New York company, incorporating it under the name of the International Telegraph Company. The object of this company is to connect our shores with Cuba and the West Indies, and from thence to branch out over all creation in general by telegraph. The greatest difficulty in this undertaking is to avoid abrasion of the cable upon the rocks, consequent upon the shoal water along our Gulf coast.

A new railroad, says an exchange, is projected across Mexican territory. The route as laid down is not far from 800 miles long, uniting thus the Pacific with the Gulf of Mexico—the City of Mexico serving as a midway point and halting place of surpassing interest to travelers. Were this road now completed and in operation, it is not doubted that it would attract much of the travel that now goes by the way of Panama. The gain in time would be from five to six days, and for passengers going to the Western State via New Orleans, the gain would be still greater.

A correspondent of the Cincinnati *Commercial* gives this hitherto unpublished anecdote of Mr. Lincoln: Once when conversing with Hon. J. A. Briggs, the Ohio State Agent, he said: "Why, Briggs, I believe there is even a system of female brokerage in offices here in Washington, for I am constantly beset by women of all sorts, high and low, pretty and ugly, modest and the other sort. Here, yesterday, a very handsome young woman called; she would not take a denial, was admitted, and went straight to work soliciting a certain office for somebody supposed to be her husband. She plead his cause dexterously, eloquently, and at times was almost successful by her importunate entreaties. By degrees she came closer and closer to me, as I sat in my chair, until really her face came so near my own that I thought she wanted me to kiss her, when my indignation came to my relief, and drawing myself back and straightening myself up, I gave her the proper sort of a look and said: 'Mrs. ——, you are very pretty, and it's very tempting, BUT I WON'T.'"

The officers of the United States Quartermaster's Department stationed in this city are now, under instructions from Washington, collecting into cemeteries the remains of all the United States soldiers that can be found on the battle fields in this vicinity. A cemetery at Cold Harbor has been fenced in, and about 1,000 bodies have been deposited there. The force which had been employed there in the work of burying the dead will commence arranging a cemetery at Frazier's farm to-day, and about the latter part of this week another force will be set to work in the neighborhood of Harrison's Landing. Each of these working parties will consist of about 70 men, mechanics and laborers—the mechanics to receive $70 per month and rations, and the laborers (colored) about $15 a month and rations. The owners of the land on which the cemeteries are located will be paid by the Government the full value of their property, and sextons will be permanently stationed at each cemetery to keep the graves and fences in order. Over the graves of all whose names &c., can be recognized, head boards will be placed.—*Richmond Whig.*

SULPHUROUS.—Major General John A. McClernand, of Illinois, did not, says the New York *Tribune*, win quite so much fame in our late war as did General Grant, Sherman, Sheridan, etc., though he had as good a chance as they, and he did not succeed in electing McClellan President, though he did his best. In short, the said Major General has not been so fortunate, and is not so distinguished as he evidently thinks he should have been, hence the anxiety for a new deal, which impelled him to write to a late Johnson meeting at Macon, Ill., as follows:

Glancing at the President's reconstruction policy, what remains to be said of it? He has officially and formally announced the termination of the rebellion and the fact that each and all of the States are entitled to exercise and enjoy the same relations to the General Government. What should the disfranchised States say? As an humble individual, revering the Constitution and respecting the rights of all, I say, let those States elect their Senators and Representatives, and let those Senators and Representatives repair to Washington and take their entitled seats in those bodies, peacefully if they can, forcibly if they must, and let the consequences take care of themselves.

It was such counsel from such Northern Democrats as McClernand, that egged on the Southern politicians to spurn their seats in the Thirty-sixth Congress and rush into rebellion and civil war. They were deceived then; their Northern tempters left them in the lurch in the hour of trial, and volunteered to fight (as Generals) to put them down. The South is not likely to be thus swindled a second time. If Major General McClernand and his fellow Copperheads want another civil war, let them inaugurate it before they seek to embroil the South. After you, sir!

THE PRESIDENT AND GENERAL GRANT.—The Washington correspondent of the Rochester (N. Y.) *Democrat*, under date of Washington, May 15th, writes as follows:

"Leading Democrats assert that the President has determined not to nominate Lieutenant General Grant to the position of General, unless that soldier shall give in his adhesion to the policy of the White House. I mention this because the persons who repeat it are persons supposed to have the entree at the Executive Mansion."

Indications have been cropping out for some time past that Johnson was becoming jealous of Gen. Grant, since that gallant officer has been prominently mentioned for the next Presidency, nevertheless we do not believe that he would *dare* to withhold the promotion from General Grant, or to confer it on any other officer. The copperhead sheets are beginning to snarl at Grant, and echo rebel ribaldry about him, and Johnson undoubtedly sympathizes with these undermining attacks, but he is not such a besotted fool as to refuse to confer upon him the Generalship, when Congress creates the office.—*Chicago Tribune.*

The way they interpret the law of mining charters in the East is something different from the interpretation it often receives out here, as the following from the Boston *Post* attests:

Before Judge Chapman—John F. M. Gilroy v. Carlos Pierce, Boston Land finished. The plaintiff, as we before stated, in this alleged that the defendant agreed with him to purchase certain mining property in Nova Scotia, paying equal amounts therefor and sharing equally in the profits they should make out of it by putting the same into a corporation and selling the shares. They went to the property, each paying one half the expenses. The defendant told the plaintiff that he had purchased the property for $22,500 gold, no more and no less, and thereupon the plaintiff paid him one half. The plaintiff now alleges that the representation that the defendant paid $22,500 was false and fraudulent, and made to him for the purpose of obtaining money from him; that in fact he only paid $11,120 and therefore he is entitled to recover the excess paid. The property was put into market at a large value, some hundreds of thousands of dollars.

Judge Chapman instructed the jury that where a mining corporation is organized with the view of procuring property of little determined value and issuing shares to make money out of the public, the transaction is an illegal one, and that if the jury believe the plaintiff was engaged in promoting a scheme of this kind, he was not entitled to the aid of a Court or jury to adjudicate upon a claim for damages alleged to have been sustained by him by reason of any false or fraudulent representations of another party engaged in like manner in the same transaction. That when property is purchased by parties of small value, and by them turned into a corporation at an enormous price, to swell the amount of its capital with the view of making money out of the public by sale of the shares, it is a fraud on the public, contrary to law and public policy, and the officer who swears to the certificate that the capital is all paid in, as required by law, is guilty of perjury, and is not entitled to credit before the courts and juries. And if satisfied that the plaintiff was engaged in such a transaction, the jury need go no further.

LEFFEL'S

American Double Turbine Water Wheel

IS NOW MANUFACTURED BY THE OREGON IRON Works, in the city of Portland, and Orders for the same can be filled immediately. We have a small supply of the different sizes from 10 inches to 48 inches in diameter. That we may know the proper sized wheel you require, measure your water in the following way: Take the width of the stream, the average depth, and the distance it flows in a minute.

All the wheels now in use give universal satisfaction. Both the construction of the wheel and its performance, commend it to the better judgment of all minds capable of appreciating the highest development of mechanical construction. Therefore it has conquered the most violent opposition.

This wheel is especially adapted to mining purposes. It is light, and can be easily packed into the mountains. Wheels weighing from 100 to 400 pounds will yield from 10 to 40 horse power, under a head of 25 to 40 feet. They are the cheapest wheel to set up known, as they are so arranged as to produce the greatest power possible from the water used.

The prices of these wheels have now been reduced to the ability of all. Come and see them or send for a circular to

The Remedy for Curing

CONSUMPTION, COUGHS, COLDS,

Asthma, Croup,

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs, Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS' TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION! IT IS WARRANTED NOT to produce costiveness (which is the case with most remedies) or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it if only taken in time.

EUGENE CLICQUOT CHAMPAGNE.

PINTS AND QUARTS CONSTANTLY ON HAND, and offered for sale by

J. BEHRENS, Agent.
420 Battery St., San Francisco.

The public is warned against an imitation of this favorite Champagne, bearing a label in counterfeit of the one used by the New York Agency.

The public is also warned against spurious Wine, bearing a label to imitate the one known here as Eugene Clicquot's put up in second hand Clicquot baskets, or otherwise.

A new label will shortly be issued, only distinguishable from the one hitherto used by a small coat of arms of very elaborate and inimitable workmanship. On application to the Agent, Wine with the new label can be forthwith supplied. Jeld91m4p

Medical.

DR. CHAS. H. TOZER'S

PRIVATE MEDICAL INSTITUTE,

N. E. Cor. Jackson and Kearney Sts.,

SAN FRANCISCO.

THE GREAT ERADICATOR OF SPECIAL COMPLAINTS, FORMERLY OF LOCKE HOSPITAL, LONDON, EIGHT YEARS IN SACRAMENTO AND THE LAST THREE YEARS IN SAN FRANCISCO.

DR. TOZER'S

Experience is of forty years standing, and during that time has met with unparalleled success in the treatment of all those diseases generally known as

Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self Abuse. The brain being the seat of the disease the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the Limbs, Headache, and an Aversion to Genial Society, especially that of Females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two latter countries no doubt have seen the dreadful effects of it on both the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think that I can say without boasting that I have seen more practice in these diseases than any other physician in California, dating as it does from 1849. It becomes you, therefore, to think well, before you employ a physician.

Who is the proper one to consult—an old experienced one or one who has recently settled amongst you?

My Plan is Purely Vegetable,

Destroying the disease and purifying the blood, so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the shin-bones, swelling of the different joints of the body, running sores, etc., etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Diseases Peculiar to Females,

Such as Retention, Painful Menstruation, etc., etc., have been my study for a great number of years, and I can safely promise a perfect cure in a short time.

Be not deterred from calling on Dr. TOZER from delicacy or a fear of exposure, as the Doctor is a man in whom you can trust, and all cases are treated with the strictest secrecy.

My Female Pills

Are the best ever used in this climate for the Suppression of the Monthly Sickness. Every lady should have a box in case of necessity. Price, $5. Consultation at the office or by letter FREE. All letters returned or destroyed. Office hours from 9 A. M. till 8 P. M.

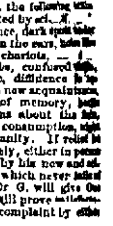
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES.

Dr. Gibbon's Dispensary,



617 KEARNEY STREET, NEAR COMMERCIAL, San Francisco; Established in 1854, for the Treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a [illegible] existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of life or the enjoyment of life. In this horrid [illegible] thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are [illegible] any of these horrible life-destroying maladies, and see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, [illegible] their skill in curing all diseases in a few days, [illegible] upon the public by using the names of eminent [illegible] from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of [illegible] the solitary vice, or depraved sexual indulgence, is [illegible] by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, [illegible] about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 617 Kearney street, near Commercial, San Francisco. Post Office Box 252.

Consultations FREE.

Prevention Better than Cure.

The newly invented Patent French Safe, a sure Preventive against Disease and Pregnancy, sent by mail. Price $2. Address DR. J. F. GIBBON, 617 Kearney St., near Commercial, San Francisco. Postoffice Box 252.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.
